

RENZ FOR QUALITY

# PRODUCT CATALOGUE

According to Art. 2 No. 1 of the Medical Device Regulation MDR (2017/745), medical devices also include products specifically intended for the cleaning, disinfection or sterilization of medical devices.

[www.rfq.de](http://www.rfq.de)

## Introduction

Unfortunately, despite technological advances, the number of reports of health care-associated infections (HAIs) is increasing, not decreasing. The expert group Swissnoso reports that in the small country of Switzerland alone, about 70,000 people are newly affected each year. Every year, HAIs are responsible for 2,000 deaths (Ministry of Health (BAG), 2019). Previous inspections of the reprocessing of flexible endoscopes in hospitals revealed serious deficiencies in some cases (Moreno, R. (Swissmedic), 2019). Special attention must be paid to the treatment of hollow spaces. Only clean devices can properly clean or dry medical devices. Water is regularly underestimated as a potential host for germs. Easy changes in your process manual and investing in well thought out cleaning guns can be quickwins for your CSSD to reduce the risk of HAIs.

## Additional background knowledge

The Medical Devices Operator Ordinance (MPBetreibV) states under §3 Duties of the Operator: *The operator shall perform the duties imposed on him by this Ordinance in order to ensure the safe and proper use of the medical devices used on patients in his health care facility.*

(<http://www.gesetze-iminternet.de/mpbetreibv/MPBetreibV.pdf>)

## Furthermore, the currently valid guidelines state:

*Operators of hospitals or medical practices have a special responsibility in the preparation of medical devices. .... Proper reprocessing can be assumed if the recommendation of the Commission for Hospital Hygiene and Infection Prevention (KRINKO) at the Robert Koch Institute (RKI) and the Federal Institute for Drugs and Medical Devices (BfArM) are adhered to.*

The guideline explicitly requires in Annex 13:

*Guns and gun accessories which can be reprocessed by machines are to be preferred. Manufacturer's instructions for reprocessing must be available.*

([https://www.krankenhaushygiene.de/pdfdata/leitlinien/2013\\_Manuelle\\_Leitline\\_deutsch\\_Internet.pdf](https://www.krankenhaushygiene.de/pdfdata/leitlinien/2013_Manuelle_Leitline_deutsch_Internet.pdf))

The recommendation of the Hygiene, Construction and Technology Committee, Requirements for the construction or conversion of a reprocessing unit for medical devices (AEMP / CSSD) also states that machine reprocessable water pressure guns and compressed air guns should be used.

([https://www.dgsv-ev.de/wp-content/uploads/2019/06/HBT\\_DE\\_ZT\\_1\\_19\\_Anforderungen-für-den-Bau-oder-Umbau\\_Teil\\_8.pdf](https://www.dgsv-ev.de/wp-content/uploads/2019/06/HBT_DE_ZT_1_19_Anforderungen-für-den-Bau-oder-Umbau_Teil_8.pdf))

Anyone in Europe who does NOT use medical devices for reprocessing risks jeopardizing their validated legally prescribed reprocessing process

The MDR (Medical Device Regulation) states in article 2 paragraph 1:  
Medical devices are also products that are specifically intended for **cleaning**, disinfection or sterilization.

## Solution

Our validated reprocessable cleaning gun made from stainless steel - The HighTech model.

We developed a cleaning gun that can be used for both water and compressed air.

All components of the new **high-tech stainless steel cleaning gun** can be reprocessed. The reprocessing process given in the IFU is validated. It is a registered class I Medical device.

Stainless steel can handle DI (deionized)-Water which is commonly used in CSSD departments. Deionized water (pH values between 4-6) is used for example for final rinsing of flexible endoscopes or ophthalmic instruments.

Guns made of die-cast aluminium or plastic **do usually not** provide this resistance to deionized water. Aluminium decomposes when being used with DI-Water

Water that does not contain dissolved minerals becomes slightly acidic. (Demineralised water). It has a pH of around 5.0, depending on the temperature and the amount of dissolved oxygen and carbon dioxide.

This makes demineralized water a weak acid.

**aluminum**

acidig      demineralised water      neutral drinking water      alkaline

✗	✗	✗	✗	✗	✗	✓	✗	✗	✗	✗	✗	✗	✗

✗	✗	✗	✓	✓	✓	✓	✓	✗	✗	✗	✗	✗	✗

**Material stainless steel 1.4404**

Stainless steel 1.4404 which is used to manufacture our HighTech cleaning gun / steel4clean cleaning gun is highly corrosion-resistant.

Properties of 1.4404 (X2CrNiMo17-13-2), AISI 316L, (V4A) Authentic stainless steel.

Usage: Used for mechanical components with greater requirements for corrosion resistance, especially in chloride containing mediums as well as for hydrogen. AISI 316L is used in a wide variety of areas, in the pharmaceutical industry (manufacture of RDTs = cleaning-disinfection and drying machines), in medical and dental technology, as well as in swimming pool construction, in building technology and for the production of press-fitting-systems for gas and water installations.

**The following materials are used**

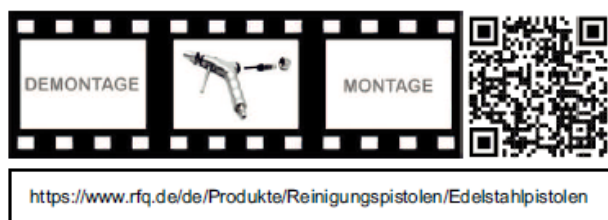

- Cleaning gun                                    stainless steel 1.4404 / piston spring 1.4571 / Piston black plastic - PEEK USP Class VI
- Nozzles    stainless steel 1.4404 / 1.4301 / 1.4305
- Coupling protection cap                    plastic - FDA approval
- Hose connection cap                        stainless steel 1.4404
- Hose connection adapter                 stainless steel 1.4404 - flat gasket KTW approval
- Quick lock coupling                         stainless steel 1.4404 / springs 1.4571/ locking pins 1.4310 /
  
- Temperature resistance                     Steam up to 135°C
- Detergent resistance                         Alkaline pH 10.4 -10.8

The silicone used for the DI water hoses is a new generation high-tech material. The DVGW approval with the tests W543, W 270 and KTW A (up to +60°C) certifies the excellent microbiological purity and mechanical resilience. The extremely smooth inner surface prevents build-up and enables low pressure drops.

The hose material is food-safe, odourless and tasteless, and it guarantees durability.

## Movie on assembling and disassembling the cleaning gun

## Awards

At the beginning of each year, RedDot, one of the most internationally renowned certification labels for design, grants the RedDot Awards. RfQ-Medizintechnik received the Red Dot Award for Product Design in 2020 with the following statement given by the jury:

*The use of stainless steel as a material increases the cleaning system's range of application and also provides a pleasant feel and a high-quality impression.*

**reddot** winner 2020

On 16.11.2021, the GERMAN MEDICAL AWARD 2021 was presented at the Congress Centre CCD Süd on the occasion of Medica 2021 at the Düsseldorf Trade Fair Centre. We were nominated for the GERMAN MEDICAL AWARD 2021 with the innovative product HighTech Cleaning Gun made of stainless steel.

## Features of the different systems

	HighTech System	steel4clean System	Selecta System	Shark / Mistral System

## HighTech Stainless Steel Spray Guns

with stainless steel quick lock coupling for plug & play

**validated reprocessable - dismantlable without tools**

Sterilization of the cleaning gun sets: steam sterilization 134°C – Class B

To rinse or blow out contaminated medical devices to 0.5 Mpa (= 5 bar).

can be sterilized  
suitable for washer-disinfectors  
validated\* reprocessable  
MEDICAL DEVICE\*

**Note:** The various cleaning gun sets always include the same cleaning gun (64-20820-10). Only the hoses and the set compositions differ depending on the area of application. For the Basic sets on pages 9+10, the handle for the quick-connect coupling 64-20850-29 is replaced by the handle with a 1/2" connection 64-20850-31.

**Note:** The "hose unit" (hose, coupling, hose connection adapter) cannot be reprocessed in the event of contamination of the pumped medium and must be replaced.

The installation of the cleaning guns must be carried out by a specialist company.

## HighTech Stainless Steel Spray Gun

**Ultimate Set for De-ionized water / Drinking water** (cold) to 5 bar, with stainless steel quick lock coupling for plug & play

**Set:** Cleaning gun, luer-lock-connector, luer-connector, pointed nozzle, shower nozzle, de-ionized waterhose: silicone hose with stainless steel braiding (KTW A, W 270, W 543) stainless steel hose fittings, hose connection adapter 3/8", hose outside 1/2" (outside thread), stainless steel quick-lock coupling, coupling protection cup, piston spare spring, silicone oil

**64-20810-00** 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "De-ionized water / Drinking water", Hose 100cm with quick-lock coupling

**64-20810-01** 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "De-ionized water / Drinking water", Hose 150cm with quick-lock coupling

**64-20810-02** 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "De-ionized water / Drinking water", Hose 200cm with quick-lock coupling

\* Validation is the documented evidence of guaranteeing a continuous and effective processing process in accordance with the legal requirements. The validation is implemented on the basis of recommendations, guidelines and standards.

### \*Regulatory classification of the HighTech Stainless Steel Spray Gun

The HighTech cleaning gun is a medical device in the sense of Art. 2 No. 1 of the MDR. (Europe)

According to Art. 2 No. 1 of the MDR, medical devices also include products intended specifically for the **cleaning**, disinfection or sterilization of medical devices.

**Note:** The validated instructions for use (IFU) can be found at <https://www.rfq.de>

## HighTech Stainless Steel Spray Gun

### Ultimate Set for Compressed air (oil-free, medically reprocessed) to 5 bar, with stainless steel quick lock coupling for plug & play

**Set:** Cleaning gun, luer-lock-connector, luer-connector, pointed nozzle, shower nozzle, PVC-tube with stainless steel quick-lock coupling and end open, silicon oil, coupling protection cup, piston spare spring

- 64-20820-00 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 100cm with quick-lock coupling
- 64-20820-01 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 150cm with quick-lock coupling
- 64-20820-02 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 200cm with quick-lock coupling
- 64-20820-03 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 250cm with quick-lock coupling
- 64-20820-04 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 300cm with quick-lock coupling
- 64-20820-05 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 350cm with quick-lock coupling
- 64-20820-06 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 400cm with quick-lock coupling
- 64-20820-07 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 450cm with quick-lock coupling
- 64-20820-08 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 500cm with quick-lock coupling
- 64-20820-09 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 550cm with quick-lock coupling
- 64-20820-11 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 600cm with quick-lock coupling
- 64-20820-12 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 650cm with quick-lock coupling

## HighTech Stainless Steel Spray Gun

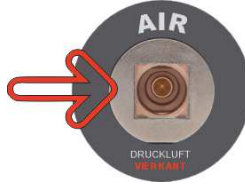

### Ultimate Set for Compressed air (oil-free, medically reprocessed) to 5 bar, with stainless steel quick lock coupling for plug & play

**Set:** Cleaning gun, luer-lock-connector, luer-connector, pointed nozzle, shower nozzle, polyamide spiral hose, blue, working length 250cm with kink protection with stainless steel quick-lock coupling and end open, silicon oil, coupling protection cup, piston spare spring  
(There are no certificates or test reports for polyamide hoses).

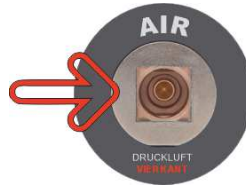

- 64-20820-50 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Spiral-Hose (blue) - WL 250cm with quick-lock coupling
- 64-20820-52 1 pcs HighTech Ultimate Cleaning gun set (Medical Line), autoclavable "Compressed air", Spiral-Hose (green) - WL 250cm with quick-lock coupling

**Note:** When using the spiral hoses on a central gas supply, we recommend the following compressed air plug (gas extraction plug) with connection (IQS standard) to the polyamide spiral hoses (64-20630-29)

**64-20630-29** 1 pcs Compressed air plug (gas sampling plug) DIN 13260 with modification connection IQS standard (max. 10 bar) suitable for polyamide spiral hoses (blue or green)

**64-20630-25** 1 pcs Compressed air plug (gas sampling plug) DIN 13260 with Jurid clamp suitable for PVC hoses

**HighTech Basic Set for Compressed air** (oil-free, medically reprocessed) to 5 bar, with threaded gun hose coupling

**Set:** HighTech-Cleaning gun with stainless steel handle 1/2" female thread for direct screw connection (not rotatable), pointed nozzle, PVC-Tube (KTW) with threaded gun hose coupling and end open (hose diameter: inside 6mm / outside 12mm), silicon oil

**64-20820-70** 1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 100cm with with threaded gun hose coupling (not rotatable)

**64-20820-71** 1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 150cm with with threaded gun hose coupling (not rotatable)

**64-20820-72** 1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable "Compressed air", Hose 200cm with with threaded gun hose coupling (not rotatable)

**HighTech Basic Set for De-ionized water / Drinking water (cold) to 5 bar, with threaded gun hose coupling**

**Set:** HighTech Cleaning gun with stainless steel handle 1/2" female thread for direct screw connection (not rotatable), pointed nozzle,, De-ionized waterhose: silicone hose with stainless steel braiding (KTW A, W 270, W 543) stainless steel hose fittings, hose connection adapter 3/8" , hose outside 1/2" (outside thread), silicon oil.

- 64-20810-70            1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable " De-ionized / Drinking water",  
Hose 100cm with with threaded gun hose coupling (not rotatable)
- 64-20810-71            1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable " De-ionized / Drinking water",  
Hose 150cm with with threaded gun hose coupling (not rotatable)
- 64-20810-72            1 pcs HighTech Basic Cleaning gun set (Medical Line), autoclavable " De-ionized / Drinking water",  
Hose 200cm with with threaded gun hose coupling (not rotatable)

**Cleaning guns - Parts & Accessories - HighTech**

- 64-20820-10            1 pcs HighTech Spray Gun-Compressed air or De-ionized water / Drinking water (Medical Line),  
with handle DN7,2 (Gun alone) for use with quick-lock-coupling 64-2085034

**Please note:** The cleaning gun 64-20820-10 can be used for compressed air as well as for demineralized water / drinking water. Authorities & scientifics do not recommend to use them alternately.

## Spare parts or individual parts for Spray Guns - HighTech

64-20850-23 1 pcs Piston with O-Rings

64-20850-26 1 box CG Piston spring (1 box = 3 pieces)

64-20850-24 1 CG Piston-O-Ring small (part of 64-20850-16)  
64-20850-25 1 CG Piston-O-Ring large (part of 64-20850-16)

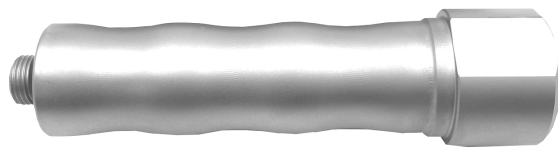

64-20850-27 1 pcs End cap for CG Gun body (suitable only for HighTech, not for steel4clean)

64-20850-28 1 pcs End cap for CG nozzle (suitable only for HighTech, not for steel4clean)

64-20850-29 1 pcs CG Handle DN 7.2 with O-Ring (Standard handle for 64-20820-10) (suitable only for HighTech, not for steel4clean)

64-20850-31 1 pcs CG Handle with with O-ring for inline coupling (1/2") or for direct mounting on water or compressed air hoses (not rotatable) (suitable only for HighTech, not for steel4clean)

64-20850-17 1 pcs CG pointed nozzle, M8

64-20850-18 1 pcs CG Luer Lock Connector M8

64-20850-19 1 pcs CG Tube nozzle Size 6

64-20850-11 1 pcs CG Luer connector Stainless Steel M8

64-20850-14 1 pcs CG shower nozzle, stainless steel, M8, mit nozzle sieve stainless steel

64-20850-15 1 pcs CG shower nozzle sieve, stainless steel, for stainless steel shower nozzle

64-20850-42 1 pcs Rinsing Canula Waterjet with 3 cross holes, working length 20 cm with LuerLock-connection (64-20850-18 Luer Lock Connector is required)

64-20850-43 1 pcs Adapter Luer-Lock female / Luer-Lock female stainless steel (64-20850-18 Luer Lock Connector is required)

64-20850-16 1 pcs Replacement set of O-Ring sealings for CG

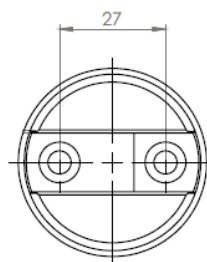

64-20850-53 1 pcs Locking pin for trigger (new model -> backwards compatible until 2019)

64-20850-33 1 pcs Silicon oil

64-20850-20 1 pcs Wall holder for Stainless Steel Spray Gun (hole distance 27mm)

64-20850-10 1 pcs Table-top rosette, for table thickness from 0 to 45mm (standard)

64-20850-09 1 pcs Table-top rosette, for table thickness from 0 to 60mm (special)

**Note:** A  $\varnothing$  34.0mm hole is required for the table top rosettes.

64-20850-47 1 pcs Nozzle Holder - Table Version (without nozzles)

64-20850-57 1 pcs Nozzle Holder - Wall Version (pins angled 45° upwards) (without nozzles)

64-20850-59 1 pcs. Sterilization tray 188 x 125 x 40 mm (base / lid / holders) - electropolished surface with spring lock

64-20850-78 1 pcs. Sterilization basket for small parts made of stainless steel wire 200 x 100 x 50 mm with lid (mesh size 1,6x1,6 mm)

64-20850-34 1 pcs Stainless steel quick-lock coupling DN7.2

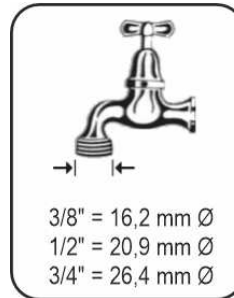

**64-20850-36** 1 pcs CG coupling protection cup

**64-20850-12** 1 pcs Hose fitting adapter, stainless steel, GA 3/8", GI 1/2"  
**64-20850-13** 1 pcs Hose fitting adapter, stainless steel, GA 3/8", GI 3/4"

**64-20825-20** 1 pcs PVC-Tube "Compressed air", length **100cm** with threaded gun hose coupling AG1/2" and a free tube end  
**64-20825-21** 1 pcs PVC-Tube "Compressed air", length **150cm** with threaded gun hose coupling AG1/2" and a free tube end  
**64-20825-22** 1 pcs PVC-Tube "Compressed air", length **200cm** with threaded gun hose coupling AG1/2" and a free tube end  
**64-20825-24** 1 pcs PVC-Tube "Compressed air", length **250cm** with threaded gun hose coupling AG1/2" and a free tube end  
**64-20825-25** 1 pcs PVC-Tube "Compressed air", length **300cm** with threaded gun hose coupling AG1/2" and a free tube end  
**64-20825-26** 1 pcs PVC-Tube "Compressed air", length **400cm** with threaded gun hose coupling AG1/2" and a free tube end

**64-20815-20** 1 pcs De-ionized waterhose / Drinking waterhose, length **100cm**, AG1/2" and 3/8" connector for water supply  
**64-20815-21** 1 pcs De-ionized waterhose / Drinking waterhose, length **150cm**, AG1/2" and 3/8" connector for water supply  
**64-20815-22** 1 pcs De-ionized waterhose / Drinking waterhose, length **200cm**, AG1/2" and 3/8" connector for water supply  
**64-20815-24** 1 pcs De-ionized waterhose / Drinking waterhose, length **300cm**, AG1/2" and 3/8" connector for water supply  
**64-20815-26** 1 pcs De-ionized waterhose / Drinking waterhose, length **400cm**, AG1/2" and 3/8" connector for water supply

## steel4clean Stainless Steel Spray Guns

with threaded gun hose coupling

validated reprocessable - dismantlable without tools

Sterilization of the cleaning gun sets: steam sterilization 134°C – Class B

To rinse or blow out contaminated medical devices to 0.5 Mpa (= 5 bar).

**Note:** The various cleaning gun sets always include the same cleaning gun (64-21020-10). Only the hoses and the set compositions differ depending on the area of application.

**Note:** The "hose unit" (hose, coupling, hose connection adapter) cannot be reprocessed in the event of contamination of the pumped medium and must be replaced.

The installation of the cleaning guns must be carried out by a specialist company.

## steel4clean Set for Compressed air (oil-free, medically reprocessed) to 5 bar, with threaded gun hose coupling

**Set:** steel4clean-Cleaning gun with stainless steel handle ½" female thread for direct screw connection (not rotatable), pointed nozzle, PVC-Tube (KTW) with threaded gun hose coupling and end open (hose diameter: inside 6mm / outside 12mm), silicon oil.

64-21020-70 1 pcs steel4clean-Cleaning gun set (Industrial Line), autoclavable "Compressed air", Hose 100cm with with threaded gun hose coupling (not rotatable)

64-21020-71 1 pcs steel4clean-Cleaning gun set (Industrial Line), autoclavable "Compressed air", Hose 150cm with with threaded gun hose coupling (not rotatable)

64-21020-72 1 pcs steel4clean-Cleaning gun set (Industrial Line), autoclavable "Compressed air", Hose 200cm with with threaded gun hose coupling (not rotatable)

## steel4clean Set for De-ionized water / Drinking water (cold) to 5 bar, with threaded gun hose coupling

**Set:** steel4clean-Cleaning gun with stainless steel handle ½" female thread for direct screw connection (not rotatable), pointed nozzle, De-ionized waterhose: silicone - hose with stainless steel braiding (KTW A, W 270, W 543) stainless steel hose fittings, hose connection adapter 3/8" , hose outside 1/2" (outside thread), silicon oil.

64-21010-70 1 pcs steel4clean-Cleaning gun set (Industrial Line), autocl. " DI / Drinking water", Hose 100cm with with threaded gun hose coupling (not rotatable)

64-21010-71 1 pcs steel4clean-Cleaning gun set (Industrial Line), autocl. " DI / Drinking water", Hose 150cm with with threaded gun hose coupling (not rotatable)

64-21010-72 1 pcs steel4clean-Cleaning gun set (Industrial Line), autocl. " DI / Drinking water", Hose 200cm with with threaded gun hose coupling (not rotatable)

## Spare parts or individual parts – steel4clean

**64-21020-10** 1 pcs steel4clean Spray Gun-Compressed air or De-ionized water / Drinking water (Industrial Line), with handle 1/2" thread (Gun alone)

**Please note:** The cleaning gun 64-10820-10 can be used for compressed air as well as for demineralized water / drinking water. However, it is not advisable to use them alternately.

**64-21050-27** 1 pcs End Cap for CG Gun body (suitable only for steel4clean, not for HighTech)

**64-21050-28** 1 pcs Front Cap for CG nozzle (suitable only for steel4clean, not for HighTech)

**64-21050-50** 1 pcs Front Cap to accommodate Selecta attachments (see category Selecta). (suitable only for steel4clean, not for HighTech)

**64-21050-31** 1 pcs CG Handle with with O-ring (1/2") for direct mounting on water or compressed air hoses (not rotatable) (suitable only for steel4clean, not for HighTech)

- 64-21050-35 1 pcs CG Coupling plug (NW7,2) G 1/2"(male thread), 1.4404
- 64-20850-23 1 pcs Piston with O-Rings
- 64-20850-26 1 box CG Piston spring (1 box = 3 pieces)
- 64-20850-17 1 pcs CG pointed nozzle, M8
- 64-20850-18 1 pcs CG Luer Lock Connector M8
- 64-20850-19 1 pcs CG Tube nozzle Size 6
- 64-20850-11 1 pcs CG Luer connector Stainless Steel M8
- 64-20850-14 1 pcs CG shower nozzle, stainless steel, M8, mit nozzle sieve stainless steel
- 64-20850-15 1 pcs CG shower nozzle sieve, stainless steel, for stainless steel shower nozzle
- 64-20850-42 1 pcs Rinsing Canula Waterjet with 3 cross hiles, working length 20 cm (64-20850-18 Luer Lock Connector is needed)
- 64-20850-43 1 pcs Adapter Luer-Lock female / Luer-Lock female stainless steel (64-20850-18 Luer Lock Connector is needed)
- 64-20850-16 1 pcs Replacement set of O-Ring sealings for CG
- 64-20850-33 1 pcs Silicon oil
- 64-20850-20 1 pcs Wall holder for Stainless Steel Spray Gun
- 64-20850-10 1 pcs Table-top rosette, for top thickness from 0 to 45mm (standard)
- 64-20850-09 1 pcs Table-top rosette, for top thickness from 0 to 60mm (special)
- 64-20850-47 1 pcs Nozzle Holder - Table Version
- 64-20850-57 1 pcs Nozzle Holder - Wall Version
- 64-20850-12 1 pcs Hose fitting adapter, stainless steel, GA 3/8", GI 1/2"
- 64-20850-13 1 pcs Hose fitting adapter, stainless steel, GA 3/8", GI 3/4"

- 64-20825-20 1 pcs PVC-Tube "Compressed air", length **100cm** with threaded gun hose coupling AG1/2" and a free tube end
- 64-20825-21 1 pcs PVC-Tube "Compressed air", length **150cm** with threaded gun hose coupling AG1/2" and a free tube end
- 64-20825-22 1 pcs PVC-Tube "Compressed air", length **200cm** with threaded gun hose coupling AG1/2" and a free tube end
- 64-20825-24 1 pcs PVC-Tube "Compressed air", length **250cm** with threaded gun hose coupling AG1/2" and a free tube end
- 64-20825-25 1 pcs PVC-Tube "Compressed air", length **300cm** with threaded gun hose coupling AG1/2" and a free tube end
- 64-20825-26 1 pcs PVC-Tube "Compressed air", length **400cm** with threaded gun hose coupling AG1/2" and a free tube end

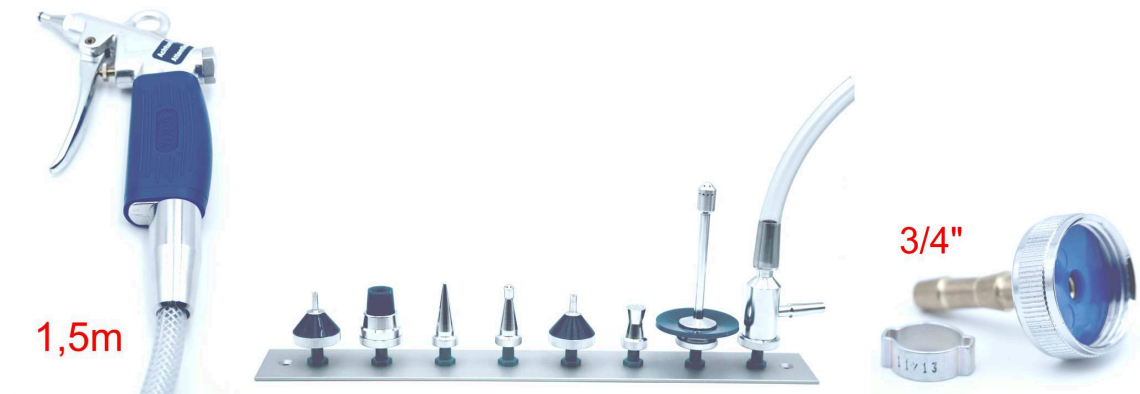

- 64-20815-20 1 pcs De-ionized waterhose / Drinking waterhose, length **100cm**, AG1/2" and 3/8" connector for water supply
- 64-20815-21 1 pcs De-ionized waterhose / Drinking waterhose, length **150cm**, AG1/2" and 3/8" connector for water supply
- 64-20815-22 1 pcs De-ionized waterhose / Drinking waterhose, length **200cm**, AG1/2" and 3/8" connector for water supply
- 64-20815-24 1 pcs De-ionized waterhose / Drinking waterhose, length **300cm**, AG1/2" and 3/8" connector for water supply
- 64-20815-26 1 pcs De-ionized waterhose / Drinking waterhose, length **400cm**, AG1/2" and 3/8" connector for water supply

**Selecta-Spray Guns (not suitable for De-ionized water)**

64-20900-00 1 pcs RFQ-SELECTA Spray Gun Rinser **new model** complete with 1,5 m tube, guide cone, standard set and 3/4" screwing loosely

64-20900-01 1 pcs RFQ-SELECTA Spray Gun Rinser **new model** complete with 1,5 m tube, guide cone, standard set and 1/2" screwing loosely

64-20920-01 1 pcs RFQ-SELECTA Spray Gun Rinser **new model** with 1,6 m metal tube, guide cone, table-top rosette and 3/4" screwing assembled

64-20920-09 1 pcs RFQ-SELECTA Spray Gun Rinser **new model** with 1,6 m metal tube, guide cone, w/o table-top rosette and 3/4" screwing assembled

64-20920-02 1 pcs RFQ-SELECTA Pure Spray Gun Rinser

64-20920-05 1 pcs RFQ-SELECTA Spray Gun Rinser with 1,5 m tube and guide cone assembled (End open)

64-20920-06 1 pcs RFQ-SELECTA Spray Gun Rinser with 3,0 m tube and guide cone assembled (End open)

64-20620-03 1 pcs Tip D for syringes and cannulas with record cone

64-20620-04 1 pcs Tip E for measuring and blood pipettes

64-20620-05 1 pcs Tip A for catheters, valves etc.

64-20620-06 1 pcs Tip B for drainage tubings

64-20620-07 1 pcs Tip F for syringes and cannulas with Luer cone

64-20620-08 1 pcs Tip C spray jet for rapid instrument cleaning

64-20620-09 1 pcs Tip G for bottles and Erlenmeyer flasks

64-20620-10 1 pcs Tip H Selecta water jet pump for suction cleaning

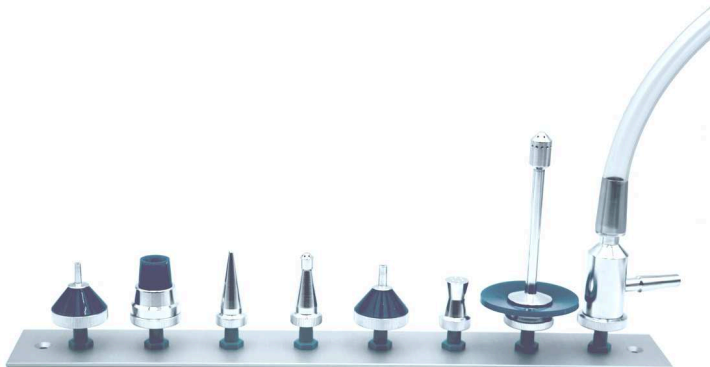

64-20621-00 1 pcs Table-top rosette 54 mm with guide cone

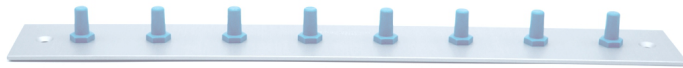

64-20621-01 1 pcs Table-top rosette 54 mm with nut without guide cone

64-20621-02 1 pcs Guide cone to screw

64-20620-20 1 pcs Standard set A-H with stable rack

64-20620-21      1 pcs Stable rack for 8 attachments complete with 2 screws

64-20630-09      1 pcs Screwing 3/4" complete

64-20630-10      1 pcs Screwing 1/2" complete

64-20630-25      1 pcs Angle Plug "AIR" DIN 13260

### Spare parts

64-20630-01      1 pcs Spray gun rinser tip complete

64-20630-02      10 pcs O-ring 3x1 (1VE=10 pcs)

64-20630-03      1 pcs Spiral tension pin

64-20630-04 1 pcs Trigger

64-20630-06 1 pcs Connection between gun and tubing

64-20630-07 1 pcs Hose clip

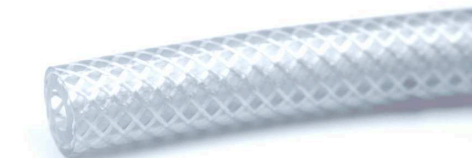

64-20630-08 1 pcs Replacement kit flow control

64-20630-12 1 pcs Clamp for PVC-tube

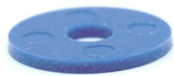

64-20630-13 1 pcs Clamp for metal-tube

64-20630-14 1 pcs PVC-tube (cut good)

64-20630-15 1 pcs Grip for spray gun rinser

64-20630-16 1 pcs Sealing 3/4"

64-20630-17 1 pcs Sealing 1/2"

64-20630-18 1 pcs Sealing disc

64-20630-19 1 pcs Tubetull

64-20630-20 1 pcs Reduction ring 1/2" and perlator

64-20630-21 1 pcs Reducing ring 1/2" and 3/8"

64-20630-22 1 pcs Hook
